FEEL IMPOSED UPON.

Minneapolis Millers Maintain Flour Rates East Are Too High.

Minneapolis, Jan. 1.—The millers of Minneapolis, who will from now on be required to pay 2½ cents extra on every 100 pounds of flour to New York, are naturally feeling imposed upon, and it is hinted that quiet efforts will be made to break the rate.

The millers believe that the exaction of 2½ cents is unreasonable from a commercial standpoint, and conceive that they will be justified in getting certain roads to cut their rate in consideration of giving favors in the routing of consignments. The rate of 2½ cents on domestic shipments to New York and 25 cents on export, is the largest ever levied.

The roads carrying the flour from Minneapolis to Chicago have agreed to bear the loss till Jan. 1, no serious complaint has yet come from the millers, but they will now be required to meet the advance. The Western roads also feel aggrieved at the exaction to which they were obliged to submit to accommodate the millers, and it is said in railroad circles that an effort will be made to present a claim for the amount lost.

GIFT TO FARGO COLLEGE.

Dr. Pearsons of Chicago Endows It With \$50,000.

Fargo, N. D., Jan. 1.—The trustees of Fargo college received a gift of \$50,000 during the day from Dr. Pearsons of Chicago for an endowment fund, according to conditions made some years ago, which have been complied with.

Danger In Raw Salads.

"It has generally been conceded," says the Sanitary Inspector, "that there is quite an element of danger in the consumption of raw salad plants which have been grown upon soil that is possibly infected with disease germs which may be present as the result of the application of stable manure to the soil. All such salad plants should be carefully washed with an abundance of water. A writer in Policlinico, an Italian journal, concludes as the result of his experiments that such salad plants may be effectually sterilized, so far as disease germs are concerned, by immersing them a half an hour in a 3 per cent solution of tartaric acid."

SHOWS SCANT MERCY

CASTRO'S MANDATE IS THE ONLY LAW NOW IN FORCE IN VENEZUELA.

COUNTRY REEKS WITH DEAD

Jails Full of the President's Political Opponents and Executions Are Taking Place Everywhere—Conditions Throughout the Land Lamentable. Allied Powers Will Seize the Customs on Jan. 9.

Caracas, Jan. 1.—President Castro, who put off his return to the capital on one pretext after another, arrived here Tuesday to confer with Mr. Bowen, United States minister. The people, with whom he is exceedingly unpopular on account of his merciless rule, received him with scant demonstration. On the other hand, the soldiers gave him an enthusiastic welcome. Salutes were fired and bands played. The president drove through the city in an open carriage, unguarded, and accompanied by General Miraflores.

Throughout Venezuela conditions are lamentable. Castro's mandate is the only law, and he shows scant mercy. He has filled the jails with his political opponents. Executions take place everywhere. The soldiery is able in this way to gratify personal spite or disappointment. Within sixteen miles of the capital eighty-five corpses can be counted today. These unfortunate persons were either hanged or shot. The country elsewhere reeks with the dead.

It is possible to state on excellent British and German official authority that the Venezuelan customs will not be seized before Jan. 9, in order to allow time for the arrival of more warships. Even then, it is not quite certain that the powers will determine to take this step, although it is likely they will do so unless Castro yields.

EVERY DEBT MUST BE PAID.

Venezuelan Rebel Leader Gives His Views on Present Crisis.

Willemstad, Island of Curacao, Jan. 1.—General Matos, the head of the revolutionary movement against President Castro, referring to Venezuela's difficulties with allied powers, said:

"The pending question has two objects. One is the recovery of certain sums of money owed by Venezuela, and the other is that of claims for injuries received by foreigners resident in the republic. I see no exceeding gravity in either of these two matters, because every legitimate debt must be paid and because the laws of the republic and its treaties with foreign nations and in special cases international law determine in every instance the proceedings under the circumstances to be followed by civilized nations who desire to uphold their honor."

NOT THREATENING MARACAIBO.

German Cruiser Has No Intention of Shelling the Town.

Caracas, Jan. 1.—The report that the German cruiser Falke is threatening to bombard Maracaibo is untrue. In the first place the cruiser cannot enter the lake of Maracaibo and as Maracaibo is ten miles from the bar it would be impossible for the Falke to bombard it. In the second place it is asserted in Maracaibo that the postmaster there has not withheld the mail of the German merchants. Maracaibo is quiet.

The blockade is working injury to commerce, and especially to American interests.

ACCEPTS THE PROPOSAL.

President Castro Willing to Arbitrate Before The Hague Court.

Washington, Jan. 1.—Secretary Hay has received the answer of President Castro to the proposal of the powers to arbitrate the Venezuelan difficulties before The Hague tribunal. President Castro accepts the general principles of the proposition. His answer was transmitted from here to London, Berlin and Rome.

MANAGED TO GET AWAY.

Italian Warship Chases a Venezuelan Schooner.

La Guayra, Jan. 1.—An Italian cruiser during the night chased a big Venezuelan schooner off this port. The occurrence was seen from here. Under cover of darkness the schooner managed to get away.

MURDERED AND EATEN.

Entire Belgian Garrison Killed on the Frontier of Uganda.

Brussels, Jan. 1.—The Congo administration has received news that Lieutenant De Magnse and his party, who were in charge of Port Boni, on the frontier of Uganda, were attacked by a cannibal tribe June 14 last and that the entire party was murdered and then eaten.

For Fast Steamship Service.

Manchester, Eng., Jan. 1.—It is rumored that J. P. Morgan is negotiating for the establishment of a fast steamship service between Manchester and the far East.

HEAVY SUITS FOR DAMAGES.

Twenty-two Men Allege They Were Deceived to the Coal Fields.

New York, Jan. 1.—Suits have been brought by twenty-two residents of this city, who claim that during the recent coal strike they were deceived to the mines in Pennsylvania by agents of the Erie railroad and of the Pennsylvania Coal company. Damages for \$50,000 each, amounting to \$1,100,000 in all, are sued for and the attorney for the plaintiffs consulted with an assistant district attorney during the day about bringing the matter before the grand jury to be sworn in next Monday. The plaintiffs claim that under pretense of doing work for the railroad and coal company they were deceived to Hoboken, where they were locked in a car and carried, against their will, to the coal regions in Pennsylvania and compelled to act as "strike breakers" under threats of "being turned over to the fury of the miners." The men say they finally succeeded in making their way back to the city, but declare that on their way home they had narrow escapes from being mobbed.

CIVIL COURTS TO DECIDE.

Disposition of the Catholic Dispute in the Philippines.

Washington, Jan. 1.—Secretary Root practically has thrown into the hands of the civil courts in the Philippines for decision, the controversy between the two elements in the Catholic church in the islands, which has developed into a schism. The schismatics, under the leadership of a priest known by the name of Aglipay, have retained possession of a large amount of church property, which is claimed by the Catholic church, and the latter appealed to Governor Taft to dispossess the schismatics. The governor held that the schism was one for the adjustment of the civil courts, and the case came to Washington on appeal. Secretary Root has sustained Governor Taft's view.

The importance of the matter to the United States government lies in the fact that the property in controversy is part of that to which title must be passed to the United States if the negotiations now in progress between Governor Taft and Mgr. Guido succeed.

CHINESE INDEMNITY FUND.

State Department Will Accept Payment on a Silver Basis.

Washington, Jan. 1.—The state department has been officially advised through its fiscal agents in China that the second installment of the Chinese indemnity fund which now falls due, must be paid in silver, or, rather, on a silver basis. This result has been anticipated and the department more than a month ago was advised unofficially of what would happen. The first installment of the indemnity, which was due July 1 last, was likewise paid on a silver basis, the nations receiving the money reserving the right to reclaim the difference between the silver and gold basis. Therefore the department will now have placed to its credit \$496,098, for it has without hesitation decided to accept the payment on the basis proposed.

HOAR'S ANTI-TRUST BILL.

Massachusetts Senator Carefully Preparing a Measure.

Washington, Jan. 1.—Senator Hoar seems greatly in earnest regarding his forthcoming anti-trust bill. He has been giving the subject his undivided attention during the holiday recess, and will have the bill ready for presentation to the senate next Monday. Several conferences have been held between Senator Hoar and Attorney General Knox regarding the language of the bill, and the president has also been conferred with. It seems altogether likely that the bill is to cover the views of both the president and Mr. Knox and to be known as an administration measure. The Republicans in the senate are preparing to give Senator Hoar's bill a respectful hearing.

SQUIERS AND PALMA CONFER.

Discuss the Chances of the Cuban Reciprocity Treaty.

Havana, Jan. 1.—United States Minister Squiers had a conference with President Palma during the day regarding the reciprocity treaty and its approval by the Cuban senate.

President Palma is quoted by La Discusion as saying that Mr. Squiers could assure the American government that the treaty would be accepted without opposition. Only four votes are doubtful and there are known to be twenty votes in favor of the treaty. Rafamaria Merchan, Cuban minister at Madrid, left here during the day for Spain to assume his duties.

SWELLS THE FAMINE FUND.

Indian Maharajah Gives \$50,000 in Commemoration of the Durbar.

Delhi, India, Jan. 1.—The Maharajah of Jaipur has given a lakh of rupees (about \$50,000) to the Indian people's famine fund in commemoration of the durbar.

The bestowal of the Kaiser-i-Hind on the vicereine is very popular and is regarded as a fitting reward for her splendid exertions in behalf of the women of India.

Chillicothe, O., Jan. 1.—Joseph Marr, a farmer, during the evening shot and severely wounded his wife and then blew out his own brains.

USELESS TO COLLECT

HELENA (MONT.) CITY COUNCIL GIVES SIXTY DAYS GRACE ON TAX PAYMENTS.

RESULT OF AN INJUNCTION

Waterworks Company Secures a Restraining Order Preventing the City Treasurer From Spending Any Money for Any Purpose Whatever, and the City Fathers Decide Not to Collect Any.

Helena, Mont., Jan. 1.—Because of an injunction secured by the Helena Waterworks company, restraining the city treasurer from spending any money for any purpose whatever, the city council has passed a resolution allowing taxpayers sixty days grace in the payment of taxes.

As there is not the remotest probability of the litigation between the city and the waterworks company being settled within a year, the council may postpone tax collections for an indefinite period.

With the securing of the injunction, the bondsmen of the city treasurer withdrew, and he was obliged to resign, but the council re-elected him the same evening. Whatever money the treasurer collects he turns over to a committee of the council, which in turn deposits it in the banks, which are by the injunction restrained from paying it out on checks.

The council has decided, therefore, as long as the city cannot spend the money, it is useless to collect it from the taxpayers, only to be hoarded in the banks.

TEACHERS OF MINNESOTA.

State Educational Association in Session in St. Paul.

St. Paul, Jan. 1.—As ex-Governor Lind's address was the feature of the afternoon session of the Minnesota Educational association, so President Race's address on "Some Pressing School Problems" was the feature of the opening general session in the morning. There were perhaps 500 men and women in the auditorium of the Central Presbyterian church when President Race called the opening session together.

Congressman-elect Lind spoke in the auditorium of the Central Presbyterian church, before an audience that filled the lower part of the church. His subject was "America's Gibraltar," the speaker taking the standpoint that while the public schools of America are her bulwark, they are a bulwark that might be materially strengthened.

While President Race's and Mr. Lind's addresses stood out in the day's programme with special distinctness, because they sharply attacked existing faults, the addresses delivered at the morning general session and in the afternoon before the associated school boards' section, commanded the interested attention of the educators present, for they treated practical problems in a practical fashion.

President Race, in his annual address stated bluntly that Minnesota had no reason to be proud of her schools. A small, lean man, smooth-shaven, almost boyish in appearance, the speaker seemed possessed of an irresistible energy that gave his paper "snap."

Mr. Race said that last summer he visited 50 per cent of the rural school districts in Minnesota, and he found one-half of those quite unfit to house the pupils.

SOUTH DAKOTA TEACHERS.

Discusses Propriety of Legislative Lobby and Elect Officers.

Mitchell, S. D., Jan. 1.—The meeting of the South Dakota Educational association was attended by 325 teachers. During the afternoon a lengthy business session was held. Long debates were held over the propriety of sending a lobby committee to Pierre during the legislature and paying an expense of from \$50 to \$100.

A resolution was introduced to locate the association permanently for a period of three years, but a long debate killed the idea.

Late in the afternoon the election of officers was held, with the following result: President, Alexander Strachan, Deadwood; recording secretary, Mrs. J. Jones, Vermillion; corresponding secretary, S. A. Cochane, Aberdeen; treasurer, J. V. Murphy, Hartford.

Canton, Sioux Falls and Aberdeen were candidates for the next meeting of the association. The teachers decided by a vote in favor of Aberdeen. In the evening the association adjourned with a watch meeting at the opera house.

TEACHERS ADJOURN AT FARGO.

Best Attended and Most Profitable of All the Meetings.

Fargo, N. D., Jan. 1.—The State Educational association closed its sixteenth annual meeting during the day. It was the best attended and most profitable in its history. The feature was participation by President MacLean of the University of Iowa. The officers elected are: President, Superintendent C. C. Schmidt, Jamestown; vice presidents, F. Everett Smith, Fargo; W. J. Bruchman, Minnewaukan; treasurer, P. S. Berg, Larimore; secretary, A. P. Hollis, Valley City.

Important action was taken for the preparation of the state exhibit at St. Louis in 1904.

Grand Forks gets the next annual meeting.

Congressman Stevens' Father Dead.

Bangor, Me., Jan. 1.—Dr. J. Stevens, father of Congressman F. C. Stevens of St. Paul, died Monday of heart failure. He was taken ill several days ago, and Congressman Stevens was present when the end came, also another son, F. F. Stevens of St. Paul.

FOUR NEW WARSHIPS.

What the Senate Committee Wants to Give the Navy.

Washington, Jan. 1.—The senate naval committee has decided to recommend the addition of four warships of 16,000 tons each to the navy. Two of these vessels, it has been decided, shall be battleships, and the others of the armored cruiser class.

Senator Hale, chairman of the committee, is opposed to this plan, preferring the building of large numbers of submarine craft rather than an extensive addition to the line of battleships.

DEAN OF DIPLOMATIC CORPS.

American Minister to Denmark Acquires That Distinction.

Washington, Jan. 1.—The department of state has been informed that recent changes in the diplomatic corps at Copenhagen have resulted in elevating United States Minister Swenson to a position of dean of that body. It is understood that this is the first time an American minister has received that distinction at the Danish court.

Morgan-Osgood.

One of the prettiest weddings that has occurred in some time was celebrated last evening. The contracting parties are well known in this city, the bride, Miss Sue Osgood, having grown to womanhood here. The groom, Harry Morgan, has also made this city his headquarters for the past several years, as representative for the Union Mattress Co. of Minneapolis, during which time he has acquired a great many friends. Dr. J. P. Dudley performed the ceremony, most beautiful decorations being provided, the colors being such as to make a great contrast with the dainty costume of the bride. The ceremony was simple and at its completion, a reception was held for the young couple from 8 to 10 p. m. At 11 the young folks were driven to the N. P., where, amid the good wishes of friends and showers of rice they departed for a three weeks trip through the eastern states. After Feb. 1, Mr. and Mrs. H. Morgan will be at home to their friends on Fourth Avenue North.—Fargo Forum.

The bride is a niece of C. N. Parker of this city.

A Bull For a God.

The ancient Egyptians believed that the spirit of their greatest god, Osiris, dwelt among them in the form of a pure white bull marked by a certain sign. Herodotus mentions two of these signs—a black eagle on the back and a black forehead with a square of white in its center. These creatures when found were worshiped during life and mummified after death. The New York Historical society has one of these "bull gods," a fine mummy from the temple of Serapis.

Hopeful.

There was a very small audience present, and it was rapidly dwindling away. On the stage the hero and heroine are holding a rendezvous.

Hero to Heroine—Are we alone? Heroine (thinking of the audience)—Not yet. There are two fellows near the door who look as if they might be able to sit through another act.

Wherein Snakes Excel.

Sir Richard Owen said: "It is true the serpent has no limbs, yet it can outclimb the monkey, outswim the fish, outleap the jerboa, and, suddenly losing the close coils of its crouching spiral, it can spring into the air and seize the bird upon the wing; thus all these creatures fall its prey. The serpent has neither hands nor talons, yet it can outwrestle the athlete and crush the tiger in the embrace of its ponderous overlapping folds. Far from licking up its food as it glides along, the serpent lifts up its crushed prey and presents it, grasped in the death coil as in a hand, to the gaping, slime dropping mouth."

A Short Sermon.

It is reported that a young man, being examined preparatory to joining the church, was asked, "Under whose preaching were you converted?"

"Under nobody's preaching," was the prompt reply. "I was converted under my mother's practicing."

Did any preacher ever utter so powerful a sermon as the young man embodied in those few words?

Another Way of Expressing It.

"When Mrs. Parvenu was poor, they used to say she was a great talker, but since she became rich it is different."

"Indeed! What do they say now?" "They say she is a brilliant conversationalist."

MUSIC AND DRAMA.

VAN DYKE & EATON COMPANY.

The Van Dyke-Eaton company opened a four night engagement at the Brainerd opera house last night and there was a very good audience. The company appeared in "Driven to Bay" and it must be said without exaggerating that the performance eclipsed anything ever attempted by a repertoire company in this city. The cast is stronger than even the Chase-Lister cast, and that is saying a good deal, for that company was good. Some of the specialties in this company are par excellence, Rouletto the juggler, hoop roller and allround musician, being the cleverest in his line that has ever been seen in the city. Walter Armin gave two barytone solos which were heartily enjoyed by all, and E. C. Sprague, who will be remembered in his black face specialties during the performance of "Across the Desert" in this city is a topnotcher.

Of the members of the cast it might be said that they are all just a degree above the average actor and actress. There is less of the rant and barn storm than is noticeable in most repertoire companies where many amateurs are usually employed. The performance pleased the audience and no one went away feeling that he did not get the worth of his money.

For tonight's performance the Van Dyke and Eaton company will produce the laughable farce comedy success, "Miss Hursey from Jersey," with an entire change of excellent specialties between the acts. This should prove a popular selection for the holiday and will undoubtedly draw out a large house, especially as the prices are only 25, 35 and 50c. Seats now selling at Dunn's.

Tomorrow night, "For Love of Gold."

Saturday afternoon a matinee will be given for women and children of the good old play, "Rip Van Winkle". Prices 10 and 25.

WALKER WHITESIDE COMPANY.

It will be welcome news to Brainerd theatre goers to hear, that the eminent actor, Mr. Walker Whiteside and his large company will appear at the local theatre next Wednesday, Jan. 7, in a magnificent revival of Shakespeare's "Hamlet".

Mr. Whiteside has always had the reputation of being a careful producer of Shakespearean plays and in his productions for this season he has completely eclipsed all his previous efforts along that line. He has supplied a large company including many of the most capable actors. The scenery is said to equal if not surpassing in beauty and richness any ever attempted in Shakespearean revivals in the west.

Gibraltar's Story.

In 1704 the rock of Gibraltar fell into the hands of the British by assault. The Prince of Hesse-Darmstadt commanded the troops and Sir George Rooke the fleet, and in the remarkably short time of four days the stronghold surrendered. Many times the Spaniards attempted to get back the key to the Mediterranean, but without success, though on one occasion they got 500 men within the fort, but failed to re-enforce them. In 1726 it was in the mind of ministers to give back the rock to Spain, but so great an agitation arose against such a step that it was abandoned. There followed a siege by Spain and France, which lasted from 1727 to 1783. On Sept. 13, 1782, no fewer than 40,000 men constituted the besieging army, and in the grand attack delivered on that day 200 heavy guns, 47 ships of the line and 10 battering ships were employed, and upward of 5,000 red hot shots were fired at the fortifications. Since then the possession of Gibraltar has remained undisputed.

NEW YEARS MESSAGE

BY REV. D. W. LYNCH

Solemn and Impressive Services

Held this Morning at St.

Francis Church.

HEARTS SHOULD BE THANKFUL

Was the Theme of the Sermon

Delivered by Father Lynch

This Morning.

This morning there was a solemn and impressive service at St. Francis church. At 10:30 o'clock high mass was sung and Rev. Father D. W. Lynch delivered a short but eloquent sermon, which, if followed by those who heard him, throughout the coming year, could not but help make their lives happier and better.

Thankfulness to Almighty God for having passed through the old year and so fortunate to stand at the threshold of the new year, was the theme of Father Lynch's sermon. Our lives are gliding away like a smooth, swift river, and there is no change in the course of the river, except by chance some small obstacle happens in the way. Our lives, the same as the flow of the river, is swiftly passing, and on such occasions as New Years, all should turn and be thankful for the infinite goodness of God Almighty.

This earth has existed for ages, in comparison with which man's life is but a moment, said the speaker, and yet we are guided and protected and we should not forget the good that He has done, how many pleasures we have been afforded and how many pains we have been spared.

The new year, the speaker said, is given us that we may redeem some of the time ill spent in the past. He then referred to the great opportunities of the youth and how precious the time should be to him. The old also value this life and the time is precious to them.

This day is different than Christmas. On this day the Christ who shed his blood and suffered that we might live, is remembered; the day therefore should be more precious. We know not what the new year may bring, but there is one example, our Lord places himself before us on this day and it should be a day of good resolutions.

Coming to a practical conclusion the speaker said that one of the important questions that everyone should take up is diligence and punctuality in religious duties; make these resolutions soberly, justly and honestly. With such a foundation there would be better citizens and happier homes.

A RETROSPECTIVE VIEW OF PAST YEAR

Some of the Events of Interest
That Happened During the

BRainerd HAS BEEN LIVELY

Although Nothing Occurred of
National Import---Noth-

It might be interesting, this being New Year's day to note in a brief review the events of importance during the past year in the city of Brainerd. There have been no startling or particularly soul stirring events, but there have been enough to relieve the city from any sluggish repose, and residents generally have been busy.

Just about a year ago now, Col. Halsted and others were busying themselves preparing for the big minstrel performance to be given at Brainerd opera house on January 14. The event was one of interest, and was one of the most successful ever attempted in the city, the Elks under whose auspices it was given, netting a neat sum therefrom.

On January 7 the work of putting in a new turbine wheel at the dam was completed, and Brainerd emerged from a season of darkness, and Alderman Rowley, who had charge of the work, was the hero of the hour.

On January 8 the Brainerd Marine band was organized, Frank Sycora as president and director. The organization has since developed into a first class organization, although there is a change in the management.

The first through train service on the M. & I., between Brainerd and Blackduck was announced early in January.

Judge S. F. Alderman tendered his resignation as county attorney and at the first meeting in January Judge Fleming was elected to succeed him.

There was a meeting of the board of education on January 6, the like of

The remains of August Brown were brought to the city from the east on Saturday, January 25, for burial.

On February 5, C. A. Clement brought a \$500 damage suit against Sheriff Erickson and Judge Sanborn. The suit has since been tried and he got a verdict of \$250 against the sheriff and now Mr. Sanborn is judge of probate.

On February 4 Judge McClenahan convened the regular term of the district court, and J. W. Koop was appointed foreman of the grand jury.

The Mountain View Route.
This is what the Northern Pacific—Shasta, or Shasta—Northern Pacific Route—it reads as well backward as forward—may well be called.

The route takes its name from Mt. Shasta in northern California. This white, snow capped peak, at the foot of which the Shasta route winds, is 14,350 feet high. The mountain is in plain view for several hours from the train and its distance from the track varies from twelve to seventy-five miles.

The beautiful scenery of the Sacramento river at the base of Shasta, is connected with this route only. Castle Crags, Mossbrae Falls and the natural twin soda fountains at Shasta Springs are scenic gems.

The crossing of the Siskiyou range furnishes the par excellence of railway mountain scenery and observation cars are furnished there free of charge. Then in succession comes Mts. Jefferson, Hood—a beautiful mountain—St. Helens, Rainier—14,532 feet high—and Adams, all former active volcanoes and now covered with glaciers.

From Portland a steamboat ride trip up the noble Columbia river to the Cascades and Dalles enables the tourist to see a river, palisades, waterfalls and mountains far surpassing anything the Hudson can show.

An opportunity is also given to visit Tacoma, Seattle, Victoria, Vancouver and the Puget Sound region.

Then follow the cascade range and the Rockies, and best of all, a stop can be made at Yellowstone Park.

This line traverses the finest scenic region of the United States—don't forget it, and see that your return tickets home from California read around this way.

The train service between Portland and the Puget Sound country, and Duluth, Minneapolis and St. Paul via Spokane, Butte and Helena, is unsurpassed, including through trains daily, one of which is the noted "North Coast Limited."

INVESTIGATION STOPS

ILLINOIS ATTORNEY GENERAL INQUIRES INTO THE COAL TRADE OF CHICAGO.

HALT IS ONLY TEMPORARY

Affairs at the Mines Will Be Looked Into to See Whether There Should Be Any Legal Action by the State Against the Coal Dealers, Operators or Railroads—No Evidence of Conspiracy Yet.

Chicago, Jan. 1.—Attorney General Hamlin's investigation of the coal trade ended in Chicago during the evening temporarily, without announcement of definite results. The attorney general took a late train for Springfield, where he will make an official inquiry Friday and Saturday into affairs at the mines, with a view to ascertaining whether there should be legal action by the state against the coal dealers and operators or the railroads.

Nearly thirty representative coal dealers and railroad officials were examined during the day.

The inquiry has not as yet brought out evidence of a conspiracy between dealers, or on the part of the railroads, or of both, although some of the former have been shown to have on hand thousands of tons of coal. They, however, claim that it is for contracts already made and not their own.

Attorney General Hamlin says that if it can be shown the coal is really not held for contracts, the dealers can be prosecuted for withholding it from the market. Several railroad men declared their roads were giving coal preference over dead freight, and produced figures to show that it was disposed of as fast as received.

SUES STATE OF MICHIGAN.

Railroad Asks Heavy Damages for Repeal of Its Special Charter.

Saginaw, Mich., Jan. 1.—Deputy Sheriff L. A. Hovey of Wayne county during the evening served summons on Governor Bliss in the case of the Michigan Central Railroad vs. The State of Michigan. The suit is for \$5,000,000 damages alleged to have been sustained in one year by reason of the repeal of the railroad's special charter. Under this charter the road was permitted to charge 3 cents a mile passenger fare instead of 2 cents, as the general law provides, and was allowed to pay a specific tax on gross earnings in lieu of all other taxes, the railroad's taxes being about doubled since the repeal of the charter.

RECOMMENDS CITY OWNERSHIP

Brooklyn Grand Jury Says Conditions Are Intolerable.

New York, Jan. 1.—The Kings county grand jury made a presentment during the day on traction facilities in Brooklyn, recommending that steps be taken to annul the charters of the constituent companies of the Brooklyn Rapid Transit company and that the city acquire and operate the surface and elevated lines. The presentment declares that the present conditions are intolerable and says the officials of the Brooklyn Rapid Transit company had admitted they could cure the evils but were unwilling to do so. The jury expresses the opinion that the roads could be operated at a profit on a 3-cent fare basis.

AFTER A SENSATIONAL TRIAL

Former Michigan State Senator Acquitted of Attempted Bribery.

Grand Haven, Mich., Jan. 1.—Former State Senator George E. Nichols of Ionia was during the evening acquitted by a jury in the circuit court after a six weeks sensational trial on the charge of attempting to bribe a witness in the criminal trials following the discovery of a scheme to mulct the city of Grand Rapids through a water supply deal and which resulted in sending City Attorney Lant K. Salisbury and another prominent Grand Rapids attorney, Stilson V. McLeod, to prison. The case was brought into Ottawa county from Grand Rapids on a change of venue.

ASK INCREASE OF PAY.

Houston (Tex.) Firemen Form a Union and Strike.

Houston, Tex., Jan. 1.—The firemen of the city during the day informed the mayor that they would cease work in the evening for the present wages but would stay on duty for forty-eight hours free of cost. The firemen recently organized a labor union and made a demand for an increase in wages. The strike was precipitated by a report that the committee having the matter in charge would recommend only a partial increase. Seventy-three men are affected, the officers being included. A special session of the council will be held to consider the matter.

REFUSES TO PAY IN GOLD.

China Wants to Pay Indemnity to Powers on a Silver Basis.

Peking, Jan. 1.—The ministers here of the foreign powers have telegraphed their governments the refusal of China to pay the international indemnity in gold notes and have discussed the matter among themselves. It is proposed to inform the Chinese government that failure to fulfill the obligations provided in the protocol will entail grave consequences.

Andrew Carnegie Presents \$250,000 for a Library at New Orleans.

New Orleans, Jan. 1.—Andrew Carnegie has given New Orleans \$250,000 for a New Year's gift. The money is to be devoted to a main library building and three branches.

RAISED MORE THAN \$20,000,000.

Springfield, Mass., Jan. 1.—In Trinity church during the evening Dr. E. M. Mills, secretary of the Twentieth Century Thank Offering commission, made the announcement that the Methodists of the country had raised more than \$20,000,000 in response to the movement begun in Trinity church by the board of bishops four years ago. Dr. Mills said that \$9,000,000 had been raised on church debts throughout the country; \$5,150,000 for Methodist colleges and schools, and \$2,750,000 for charities; \$600,000 had been raised for the permanent fund for the conference claimants, and a little over \$385,000 to build churches in destitute communities.

EXCLUDED FROM AUSTRIA.

Brother of the Crown Princess of Saxony Banished.

Montreux, Switzerland, Jan. 1.—Archduke Leopold Ferdinand, brother of the Crown Princess of Saxony, in an interview during the day, confirmed the report that Emperor Francis Joseph had written to inform him that he had been expelled from the army, deprived of his pension, excluded from Austria and ordered to become a subject of another country. The archduke said it was not true, however, that he had accepted all the points advanced by the emperor. He declared that he had accepted only two proposals, namely, his expulsion from the army and from the Order of the Golden Fleece.

PAUL REVERE'S OLD HOME.

Steps Taken to Restore and Preserve the Structure.

Boston, Jan. 1.—Paul Revere's old home, one of the few structures of pre-revolutionary interest in Boston, was bought by John P. Reynolds, Jr., a real estate dealer, during the day. He proposes to preserve it. The house is in North square, in the heart of the thickly settled North End, and was built in 1776. Revere buying it fourteen years later. Mr. Reynolds will ask others to assist him in restoring the building before handing it over to the care of some patriotic society.
